EDUCATION

Babu Banarsi Das Northern India Institute Of Technology

Bachelor of Technology in Information Technology

Sep 2022 – Jul 2026

Lucknow, India

- Cumulative GPA: 8.1/10.0

EXPERIENCE

Sahind Technologies

Aug 2025 – Nov 2025

Backend Developer Intern

On-site

- Engineered a scalable **MySQL** database schema with **20+ tables** and optimized complex queries, reducing average **API** response time by **30%** for high-volume data retrieval.
- Integrated **3+ critical** third-party **APIs (Razorpay, MPlan, A1Topup)** to enable real-time mobile recharges and secure wallet transactions, achieving a **100% success rate** in payment processing tests.
- Deployed the production build on **AWS EC2** with **SSL/HTTPS** and secured **100% of application endpoints** using **Spring Security (JWT)**, ensuring **99.9% system uptime** and role-based data protection.

PROJECTS

YouPi – Integrated Fintech & NBFC Platform [Link]

Aug 2025 – Nov 2025

Java, Spring Boot, MySQL, React, AWS

- **Developed** a modular **Fintech ecosystem** using **Java Spring Boot**, featuring **3+ core modules** (User KYC, Wallet, Admin) to streamline secure digital payments and user onboarding.
- **Architected** scalable logic for **dynamic operator retrieval** and **automated plan fetching**, reducing manual inputs by **100%** and ensuring real-time accuracy for recharge transactions.
- **Integrated Razorpay Payment Gateway** and **OTP-based Authentication**, ensuring **100% transaction security** and seamless wallet top-ups for end-users.

CareerSarthi-AI-JobPortal [Link]

Jul 2025 – Aug 2025

Java, Servlets, JSP, Ollama, LaTeX, MySQL

- Orchestrated a full-stack resume platform using a **4-tier Java architecture**, integrating a local **Llama LLM** to guarantee **100%** data privacy and achieve a **sub-500ms** response time for content generation.
- Devised a document generation engine using **LaTeX** to programmatically render AI-driven content into pixel-perfect, **ATS-compliant** PDF resumes across **5+ templates**, eliminating **100%** of manual formatting.
- Engineered a cohesive end-to-end user journey, consolidating a **4-stage process** into a single, seamless workflow managed by a robust Java backend.

Java Note-Taking Web Application [Link]

Jun 2025 – Jul 2025

Spring Boot, JSP, Servlets, JDBC, MySQL

- Architected a secure, multi-user note-taking platform using Spring Boot, implementing full CRUD functionality for over **1,000+** note entries and complete user session management.
- Bolstered application security by integrating password encryption (**BCrypt**) and server-side validation, mitigating **100%** of common vulnerabilities like SQL Injection and XSS in penetration tests.
- Orchestrated a full local deployment on Apache Tomcat, achieving a **100% pass rate** across all **50+ unit and integration tests** for core backend functionalities.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), SQL

Backend: Spring Boot, Spring MVC, Spring Security, JWT, Servlets, JSP, JDBC, RESTful APIs

Frontend: HTML5, CSS3, JavaScript (ES6+), React

AI & LLMs: LLM Integration, Prompt Engineering, Ollama, Gemini, ChatGPT

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Maven, LaTeX, Docker

Core Concepts: Data Structures, Algorithms, OOP, MVC Architecture, Database Design

ACHIEVEMENTS

- Solved **100+** Data Structures and Algorithms problems on **LeetCode & GeeksforGeeks**, demonstrating strong command of Arrays, Strings, LinkedList, and Recursion.
- **Make4Lucknow Hackathon Finalist:** Ranked among the **top 10 teams** from **400+** participants by developing a functional prototype for a community support application in 48 hours.

CERTIFICATIONS

- **Java Core & Advance** Certificate issued by ShapeMySkills.
- **Innovation and Design Thinking** issued by Kalam Pragati 2025.
